Languages: Romanian (native), English (C1), German (A1)

Summary

Final-year Economic Informatics student (ASE Bucharest, graduating July 2027) combining data analysis (Python, SQL, machine learning) with full-stack web development (Java, Node.js, React) and Linux server administration. Led a 30+ member technical department as IT Director and runs a freelance development practice (PFA) maintaining production websites for clients.

Work Experience

Freelance Web Developer | PFA, Piatra Neamt | 2026 – Present

- Deliver and maintain three production WordPress/WooCommerce websites.
- Manage the full client lifecycle as sole operator: client communication, requirements analysis, effort estimation, deployment, hosting, troubleshooting and technical support.
- Develop full-stack features for Romania Turistica, a national tourism platform (Next.js, React), using AI coding assistants (Claude Code) for planning, implementation and testing.

IT Director | SiSC (Sindicatul Studentilor din Cibernetica), Bucharest | 2025 – 2026

- Led a technical department of 30+ members across frontend, backend and operations, coordinating task distribution, timelines, technical standards and Agile sprint planning.
- Developed and maintained the organization's internal platforms: Java and Node.js backend (Express, Sequelize, REST APIs) and React frontend; implemented Google Authentication, QR-code scanning and online payments.
- Administered Linux servers (nginx, PM2, SSH, DigitalOcean) and GitLab repositories, managing user access and onboarding.
- Supported the IT divisions of five flagship events (ITFest, Spring IT, Tap That Job, SiSC Promo, STS) with technical guidance and coordination alongside division leads; the platforms handled 1,000+ registrations, including 446 recruitment and 382 internship applicants.
- Trained 30–40 members in JavaScript and the Node.js runtime through a dedicated workshop.

Data Analyst Intern (112-hour internship) | BCR (Erste Group), Bucharest | Apr 2026

- Built a supervised regression pipeline in Python (pandas, scikit-learn) on a dataset of 453 language models, in a team of six.
- Selected features using Spearman correlation, ANOVA and VIF; compared Linear Regression, Random Forest and Gradient Boosting under 5-fold cross-validation; explained predictions with SHAP.

Education

B.Sc. Economic Informatics | Bucharest University of Economic Studies (ASE), CSIE | 2024 – 2027

- Relevant coursework: databases (Oracle, SQL, PL/SQL), OOP, data structures and algorithms, statistics, probability theory, operations research, econometrics, systems analysis and design, accounting, finance, management.

Baccalaureate, Mathematics & Informatics | National College of Informatics, Piatra Neamt | 2020 – 2024

Projects

- **LLM Price-Performance Tracker** (2026): drivers of token pricing across 453 language models (Gradient Boosting, SHAP).
- **Tribuna Nemtenilor** (2025): local news website with Firebase authentication and Firestore-backed content management.

Skills

- **Programming:** Java, JavaScript, SQL, PL/SQL, C/C++ (advanced); Python, C#/.NET, Assembly (intermediate); OOP, data structures and algorithms, genetic algorithms, Windows desktop applications.
- **Databases:** Oracle, MySQL, MariaDB; relational database design, query writing and optimization; PL/SQL procedures, functions, packages and triggers.
- **Data Analysis:** Python, pandas, scikit-learn, SHAP; data cleaning, feature selection, regression modeling, machine learning, cross-validation; statistics, econometrics.
- **Backend:** Node.js, Express, Sequelize, REST APIs, authentication flows, online payment integrations.
- **Frontend & Web:** React, Next.js, JavaScript, HTML, CSS, responsive design, SEO, WordPress, WooCommerce, Firebase; Android.
- **Infrastructure & IT Support:** Linux server administration (nginx, PM2, SSH, DigitalOcean), operating systems, deployment, troubleshooting, user access management; Git, GitHub, GitLab; AI-assisted development (Claude Code).
- **Business:** requirements analysis, effort estimation, technical documentation, quantitative micro- and macroeconomics, economic cybernetics, accounting, finance, management, marketing.
- **Soft Skills:** team leadership (30+ members), communication, technical training and public speaking, end-to-end project ownership, analytical problem solving, adaptability.

Certificates

- Oracle Academy: Database Programming with PL/SQL (May 2026); Database Design and Programming with SQL (Oct 2025)
- Cambridge Certificate in Advanced English, C1 (May 2023); European Computer Driving Licence, ECDL (May 2023)
